West Germany: A contemporary history. by Michael Leonard Graham Balfour. 0 Ratings. 1 Want to read. 0 Currently reading. 0 Have read. This edition published in 1982 by St. Martin's Press in New York. Contemporary history, in English-language historiography, is a subset of modern history that describes the historical period from approximately 1945 to the present.[1] Contemporary history is either a subset of the late modern period, or it is one of the three major subsets of modern history, alongside the early modern period and the late modern period. The term contemporary history has been in use at least since the early 19th century.[2]. Contemporary history is politically dominated by the Cold War (1945â€“1991) between the United States and the Soviet Union whose effects were felt across the German-German perspective, this book suggests a different approach to the history of contemporary Germany. Departing from the already well-researched diplomatic level, it offers a comparative look at changing social structures in East and West Ger-. O. 2. FRANK BÅ–SCH. many, such as work, the economy, welfare, education, lifestyle, and politics, as well as the environment, sports, and media. It not only takes into account the separate histories or differences between the states, but also openly seeks to detect similarities and interactions between East and West.
