Global literacy today. Historical change in literacy. Literacy around the world today. Literacy is a key skill and a key measure of a population’s education. In this entry we discuss historical trends, as well as recent developments in literacy. From a historical perspective, literacy levels for the world population have risen drastically in the last couple of centuries. It was only until the Middle Ages that book production started growing and literacy among the general population slowly started becoming important in the Western World. In fact, while the ambition of universal literacy in Europe was a fundamental reform born from the Enlightenment, it took centuries for it to happen. Comic book culture and second language learners.
